Amounts reflect Congressional appropriation under Title VI of the Clean Water Act (CWA) less national set-aside for Indian Tribes and state set-asides for water quality planning under CWA section 604(b). State shares are determined in accordance with section 205(c) of the CWA.

The District of Columbia receives its allotment as direct grants for construction projects; the District was exempted from establishing a State Revolving Fund.

Does not include state contributions in excess of the minimum required 20% state match nor transfers of unexpended funds available under the Construction Grants program.

Funds are available for award to the states for a two year period.
